CLASS NOTES-ANSWERS

Speaking

Work in pairs. Imagine that your family members have given you some money to buy things that you need or would like to have. You go to a shop with the money. Now, tell your partner what you would tell the shopkeeper to get the things that you want. Also mention to your partner how much money you wish to spend, how much you plan to save and why.

Answer: Sample

If my family gave me ₹500 to buy some things I wanted, I would go to the bookstore and ask the shopkeeper to give me a copy of A Christmas Carol by Charles Dickens. I would also buy a small notebook and one ink pen. This would cost me around ₹300. I would save the remaining ₹200 for my piggy bank. As you know, I have been saving up for the Harry Potter series. So, I would add the money to my savings.

I went shopping with my father last week. My school was about to reopen and I needed to buy a few things. The shop was big and bright. While my father was paying, I looked around and saw many other nice things. I loved my shopping experience very much.
