

CLASS NOTES-ANSWERS

1) Do you find that all living beings need the same kind of food?

Answer: No, all living beings cannot survive with the same kind of food because- sunlight is the main source of energy for plants. But humans and other animals cannot survive with just sunlight. Some animals eat only grass and are known as herbivores. Some animals eat other animals for nutrition and are known as carnivores. Some animals eat both plants and animals and are known as omnivores.

2) Name five plants and their parts that we eat.

Answer: The names of five plants and the parts that we eat are,

- i) Paddy: seeds
- ii) Wheat: seeds
- iii) Cabbage - leaves
- iv) Brinjal plant: fruits
- v) Potato plant: stems

3) Match the items given in column A with those in column B:

Column A	Column B
i) milk, curd, paneer, ghee	a) eat other animals
ii) spinach, cauliflower, carrot	b) eat plants and plant products
iii) lions and tigers	c) are vegetables
iv) herbivores	d) are all animal products

4) Fill up the blanks with the words given:

herbivore, plant, milk, sugarcane, carnivore

- a) Tiger is a carnivore because it eats only meat.
- b) Deer eats only plant products and so is called herbivore.
- c) Parrot eats only plant products.
- d) The milk that we drink, which comes from cows, buffaloes, and goats, is an animal product.
- e) We get sugar from sugarcane.
