Welcome to

'The Garden School'

At Garden School, students must not only possess strong skills in areas such as language arts, mathematics, and science, but they must also be adept at skills such as critical thinking, problem-solving, persistence, collaboration, and curiosity.

Our creative curriculum interweaves the requirements of the national curriculum with engaging termly topics. Themed events, activities and trips amaze and excite the children providing experiences that will last a lifetime. When pupils are engaged and inspired by exciting learning opportunities, the learning is deep and intrinsic motivation is high.

Our school is a safe environment that provides opportunities through the curriculum to allow children to flourish. The Garden School is a place to discover, share and explore; a place to escape into adventures, a place of surprise and above all, a place where children love to learn.

Strong foundations underpin all learning and skills development. Learning depends on students who are prepared, present, and motivated—but getting students there will often require policy change within and beyond education systems.

EXPERIENCES THAT LAST A LIFETIME

At Garden School, we teach our pupils three sets of 21st-century skills, Foundational Literacies, Competencies and Character Qualities, a total of 16 skills.

Garden School engages and excites children, developing confidence and self-esteem. The freedom to explore and venture into the great outdoors provides learning experiences that push boundaries.

Academic success is at the core of all we do, our small class sizes, combined with our individual approach, ensure that all children achieve their full academic potential. The essential skills of reading, writing, mathematics, environment are at the core of our curriculum.

Music and drama play an important role in life at The Garden School. Children from all years participate in performances every year and there are ample opportunities for children to develop and showcase their talents.

Sports is essential to life and children at Garden school enjoys sports and physical education. We teach life skills through sports, creating a sense of identity and helping them learn how to follow rules, attain self-discipline and teaching them how to manage conflict while dealing with authority, how to handle setbacks and attacks, giving them the confidence to get along with people and gives them an active lifestyle for life.

"Learning adventure start here, let your kid enjoy their life in our garden."
